

NOTICE TO TOWN OF BROADWAY RESIDENTS REGARDING SNOW REMOVAL

As we enter the winter season, please keep the following in mind regarding snow removal by the Town of Broadway's Public Works Department:

- Snowplows push snow, they do not remove it. Snow mounds are created each time the trucks plow the street, including the final pass after the snow stops falling. Please note that if you clear the snow mound before the final pass, trucks will likely be creating another snow mound on its next pass.
- If you must shovel before the next pass, please shovel snow to the right side of your driveway as you stand facing the street. It is also very helpful if you clear an area to the left of your driveway (in the street), to give the snow blade of the plow a place to empty before it gets to your driveway. This will save you doing the same job twice.
- It is important to stretch, take breaks, and stay dry as you shovel snow.
- Please do not throw shoveled snow into the street. Depositing snow or ice into a plowed street causes severe safety hazards for motorists.
- Please clear the sidewalk in front of your location within 24 hours, after the storm has passed. If you are able, consider assisting someone else to clear their sidewalk.

The Town of Broadway thanks you for your cooperation in helping us preserve safety on our roads and sidewalks during the winter season.
